## Bushfire Recovery Workshop

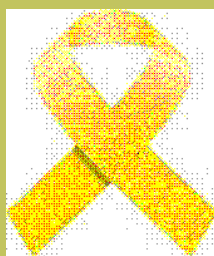

Forum for young people from Gippsland living in Melbourne

Relationships Australia Victoria, in partnership with Latrobe City Council, extends an invitation to any young people affected by the 2009 BUSHFIRES in Gippsland, who are now living, working and perhaps studying in Melbourne, to attend an Information Forum.

A number of people in Gippsland have suggested that family members and friends now living in Melbourne may wish to attend a session where a highly experienced counsellor will be available and present information of relevance to this group. If sufficient interest exists, this group could become an ongoing social and support group.

**\*We encourage you to bring along a friend**
